HYDROBIOLOGICAL JOURNAL
VOLUME 23
CONTENTS FOR 1987

Number 1

A.I. Merezhko: Ecological Problems of Exploitation of Small Rivers . . . 1
N.N. Khmeleva and A.P. Ostapenya: Production of Organic Matter in Geothermal Springs . . . 6
V.D. Chmyr: Quantitative Correlations in Marine Planktic Communities. II. Comparison of Indices of Phyto- and Zooplankton Biomass in Marine Planktic Communities . . . 11
D.A. Nesterova: Characteristics of Phytoplankton Succession in the Northwest Black Sea . . . 16
G.V. Nosovskaya: Benthic Biocoenoses of the Northwest Black Sea under Conditions of Anthropogenic Influence . . . 22
I.Kh. Alekperov: Free-Living Infusoria of Reservoirs in the Nakhichevan ASSR . . . 27
V.N. Mikheyev: Mechanism of Selective Feeding by Zander Fingerlings in *Daphnia* Concentrations . . . 34
I.V. Trenkler: Feeding Variability in Juvenile Beluga Sturgeon . . . 38
M.I. Kiseleva: Macrobenthos of the Coastal Black Sea After Cessation of Sewage Discharge . . . 42
E.Z. Samyshev, A.I. Gaydamak, E.A. Chepurnova, and Yu.A. Shulyakovskiy: Abundance and Biomass of Bacterioplankton in Antarctic Waters . . . 46
V.N. Kozitskaya: Effect of Phenols on Vital Activity of *Microcystis aeruginosa* . . . 54
V.M. Vagnyuk, T.L. Oleynik, N.P. Ksendzyuk, and V.I. Mironyuk: Analysis of the Phenol-Utilizing Function of Axenic and Algobacterial Cultures of Chlorella . . . 60
S.A. Goromosova, N.Yu. Milovidova, V.A. Tamozhnyaya, and A.Z. Shapiro: Some Ecological and Biochemical Indices of Pollution Tolerance Mollusks . . . 65
Yu.Yu. Sautin and V.S. Vasilevskiy: Effect of Prolactin on Lipid Content, Lipolytic Activity and Lipogenesis in Carp Tissue . . . 70
R.P. Kondyuk: Steroids in Mussels Grown on Artificial and Natural Substrates 75
G.M. Magomedov and Z.A. Umorova: Rate of Oxygen Uptake in Autumn Chum Salmon Fingerlings . . . 81
A.Ya. Malyarevskaya and F.M. Karasina: Effect of Lead Nitrate on Physiological and Biochemical Characteristics of Certain Aquatic Invertebrates 84
D.G. Vodenicharov, T.G. Atavina, and D.I. Stom: Use of Zoospore Immobilization to Evaluate the Toxicity of Phenols . . . 90
V.F. Mukhutdinov and A.I. Pashkevich: Effectiveness of Three Methods of Preparing Phytoplankton Samples for Determination of Chlorophyll . . . 95
I.V. Kozlova: Zooplankton Production of Lake Karakul'myak Under Intensive Predation by Juvenile Peled . . . 97
K.N. Kuz'menko: Long-Term Dynamics of Three Populations of Chironomid Larvae in Lake Krasnoye . . . 99
N.P. Zhemayeva: Population Structure of the Aquatic Sowbug Grown in Ponds 102
N.I. Varenko: Hydrochemical Regime of Floodplain Waters of the Middle Dnieper . . . 106

Number 2

L.P. Braginskiy: Fifth Congress of the All-Union Hydrobiological Society (Review of Plenary Sessions) . . . 1
V.I. Sevast'yanov: Characteristics of Formation of Water Quality in Reservoirs of Energy Complexes . . . 7

V.G. Il'yichev and F.A. Surkov: Possible Transformations in the Trophic Level of the Azov Sea with Constriction of the Strait of Taganrog Bay . 13
V.I. Shcherbak and M.I. Kuz'menko: Intensity of Photosynthesis by Phytoplankton at Various Depths in the Photic Zone 20
R.Ya. Line: Body Mass and Its Seasonal Variability of Several Calanids in the Baltic Sea 24
A.N. Dzyuban: Determining Decomposition of Organic Matter in Bottom Sediments of Water Bodies 29
V.A. Babitskiy: Vertical Distribution of Microfauna in Sediments of a Mesotrophic Lake 35
M.I. Kiseleva: Changes in the Composition and Distribution of Polychaetes in the Sea of Azov 40
Ye.A. Kurashov and V.P. Belyakov: Role of Meiofauna in Benthic Communities of Lakes of Various Types in the Lattgalian Hills 46
L.V. Lartseva and Yu.V. Altuf'yev: Pathogenicity of Saprolegnia Fungi to Servryuga Sturgeon Eggs in Hatcheries 51
T.N. Mordvinova and A.M. Parukhin: Helminth Fauna of Myctophid Fishes from Various Areas of the Oceans 58
Yu.S. Belokopytin and G.Ye. Shul'man: Temperature Dependence of Energy Metabolism in Fish of the Black Sea and Sea of Azov 61
A.I. Zotin, V.A. Konoplev, L.I. Radzinskaya, and I.S. Nikol'skaya: Relationship between Oxygen Consumption and Body Weight in Mussels 65
Yu.B. Morev and T.S. Smailova: Food Assimilation Rate of Tubificid Worms *Tubifex tubifex* (Oligochaeta) 69
T.L. Shchekaturina and O.G. Mironov: Accumulation of Petroleum Hydrocarbons by the Mussel *Mytilus galloprovincialis* 73
I.M. Raspopov and O.N. Dotsenko: Method for Measuring Total Movement of a Water Mass 79
V.M. Zadorina: Choice of Trap Exposure Time for Collection of Invertebrate Drift Samples 82
Yu.V. Dubrovskiy: Evaluation of Trophic Competition from Stomach Gut-Filling Indices 87
T.S. Kravchuk and L.I. Myrzakova: Mathematical Methods of Studying Competition between Several Species of Aquatic Macrophytes 91
N.V. Aladin and R.S. Val'diviya Villar: Microcryoscopic Study of Liquid from Eggs and Embryos of Cladocerans 97

Number 3

M.A. Belova and I.M. Raspopov: Macrophytes and Their Bacterial Decomposition in Inland Waters (Review) 1
T.V. Golovko and G.A. Zhdanova: Utilization of Bacterial Food Resources by Zooplankton in Kiev Reservoir 8
V.S. Sarviro: Specific Growth Rate of *Daphnia longispina* in Relation to Temperature and Population Density 14
S. Yembergenov, L.P. Pavlovskaya, and N. Mnazhev: Composition and Dynamics of Zooplankton and Zoobenthos in Lake Sarykamysh 23
A.G. Kasymov and Z.Yu. Abdurakhmanova: Benthic Fauna of Lake Divichin Lagoon 31
V.N. Ivankov, P.Ye. Luk'yanov, and N.V. Moskovaya: Hybridization of Two Similar Species of Far Eastern Redfin, Genus *Tribolodon* (Cyprinidae) . . 35
V.V. Sherstyuk and O.B. Kirilyuk: Variations in Ecological and Biochemical Characteristics of the White Bream (*Blicca bjoerkna*) in Kanev and Kremenchug Resevoirs 39
V.M. Yakuchin: Effect of Aquatic Macrophytes on Microbiological Water Quality Indices in the Presence of Decomposing Dissolved Organic Matter . 44
L.Ya. Kurovskaya: Changes in Morphophysiological and Biochemical Characteristics of Yearling Grass Carp Caused by Helminths 47
V.D. Romanenko and O.M. Arsan: Bioenergetic Mechanisms of the Acclimation of Fish to Environmental Temperature and Gas Factors 52
A.S. Konstantinov and M.Yu. Pelipenko: Species-Specific Effect of Exometabolites on Growth and Physiological Condition of fish 56

L.P. Ryzhkov and A.V. Polina: Variations in Fat Content and Energy Potential of Certain Salmonids 62
Z.P. Nedovesova: Deoxyribonuclease Activity in Embryogenesis of Carp . . 67
Ye.M. Nikonenko: Accumulation and Exchange of Certain Chemical Elements in Algae and Protozoans 71
T.L. Shchekaturina: Short-Term Effect of Diesel Fuel on Hydrocarbon Composition of Mussels 77
D.P. Marchyulenene: Accumulation of Radionuclides by Aquatic Plants in a Model Experiment 81
K.M. Khaylov, S.A. Kovardakov, Yu.N. Chuvilko, and Yu.S. Gumenyuk: A Compact Device for Hydrobiological Experiments with Controlled Water Flow 86
I.V. Knyazev: Use of the Van't-Hoff Coefficient to Analyze the Growth of Carp Fingerlings 91
S.B. Andronnikov, E.V. Ivanov, T.M. Lukina, and I.S. Shesterin: A Method of Determining the Toxicity of the Aquatic Environment from Changes in the Gill Apparatus of Fish 95
N.A. Davidovich: Ratio of Phytoplankton Production and Decomposition of Organic Matter in the Danube, the Danube-Sasyk Canal, and in Sasyk Reservoir 98
F.T. Tail: Effect of Hydrogen Sulfide on Survival Rate of Certain Fish Under Hypoxic Conditions 102

Number 4

G.V. Kravtsova, L.I. Vol'vich, and Yu.A. Katretskiy: The Role of Various Plankton Components in the Decomposition of Organic Matter 1
V.I. Shcherbak, L.L. Pyl, and V.G. Klenus: Primary Production of Phytoplankton in the Chilia Branch of the Danube 8
N.V. Vekhov: Range, Biotope Distribution and Life Cycles of Warm-Water Cladocerans in Subarctic Waters of Europe 12
V.V. Zharikov: Ecology of *Metacineta mystacina* and *Heliophyra collini* in the Aufwuchs of Lake Sevan 17
V.R. Alekseyev: Photoperiodism and Seasonal Development of *Mesocyclops leuckarti* Populations 21
V.V. Gal'tsova and O.N. Pavlyuk: Redox Potential and Vertical Distribution of Meiobenthos 27
E.P. Sergeyeva and L.M. Yaroslavtseva: Temperature and Salinity Tolerance Diffferences between Intraspecific Populations of a Mollusk 34
M.I. Dzhabarov, M.A. Vodovozova, E.G. Khasayeva, and A.Sh. Dadashev: Physical and Biochemical Description of Young Sheap Sturgeon × Beluga Hybrids Reared on Feed Containing Krill Protein 40
I.V. Strubitskiy, M.I. Kuz'menko, and N.S. Yalynskaya: Regulation of the Phenol-Ferredoxin-Thioredoxin Energy Metabolism System in *Microcystis aeruginosa* 45
L.M. Zimina and T.G. Sazykina: Liberation of Exometabolites by Exometabolites by Microalgae as a Mechanism Regulating Population Density . . 50
V.M. Yurin: Effect of Temperature on the Nature of Chemically Induced Changes in the Electrophysiological Reaction of *Nitella flexilis* Cells 55
I. Tatrai: Excretion of Nitrogen and Phosphorus by Chironomid Larvae . . 59
V.I. Luk'yanenko, S.A. Cherkashin, and P.A. Kandinskiy: Behavior of Juvenile Fish and Mysids in Solutions of Organic Toxicants 65
S.N. Kushnikova: Use of Bioassay to Study Zooplankton 71
T.A. Makarevich, A.P. Ostapenya, and T.M. Mikheyeva: A Rapid Method of Determining Growth Rate and Production Characteristics of Periphyton . 77
A.F. Krakhmal'nyy: A Device for Automatic Concentration of Phytoplankton Samples 82
I.L. Trubetskova: Feeding Rate of *Daphnia magna* Adapted to Various Food Concentrations and Temperatures 85
V.P. Mashina: Ecological Description of the Nematode Fauna of Kremenchug Reservoir 90

O.P. Oksiyuk, Yu.I. Karpezo, and O.A. Kuz'ko: Production of Algal Groups in Canals of the Ukraine and Northern Kazakhstan 93
A.I. Kovrizhnykh and L.I. Glavish: Determination of the Saprobicity of Karlovskoye Reservoir from Phytoplankton 96
In Memory of Academician of the Ukrainian Academy of Sciences A.V. Topachevskiy (1897-1973) 98

Number 5

L.M. Sushcheniya: Soviet Hydrobiology up to the Seventieth Anniversary of the Great October Revolution: New Demands and Tasks 1
V.D. Romanenko: Tasks of Hydrobiologists in the Ukraine Under Conditions of Accelerated Scientific and Technical Progress 5
I.M. Raspopov: Development of Hydrobotany in the Soviet Union 11
T.E. Timm: Hydrobiological Investigations on USSR Lakes 24
A.G. Kasymov: Development and Most Important Results of Hydrobiological Investigations in the Caucasus 32
L.I. Sokolov and M.I. Shatunovskiy: Seventy Years of Soviet Ichthyology . 45
G.Ye. Shul'man: Development of Ecological-Physiological and Physiological-Biochemical Investigations of Aquatic Animals in the USSR 54
V.M. Kudryavtsev, A.V. Tsyban', N.V. Kovaleva, M.N. Korsak and A.V. Nikulin: Primary Production and Composition of Organic Matter in the Open Area of the Baltic Sea 66
V.V. Polischuk: Zooplankton of the River Mouth Areas of Kiev Reservoir . . 71
S.I. Andreyeva and N.I. Andreyev: Benthic Biocoenoses of the Aral Sea Under Changing Conditions 82
N.N. Kharitonova, V.S. Polishchuk, L.I. Stetsenko and L.I. Demchenko: Effect of a Combination of Nitrogen-Phosphorus and Potassium Fertilizers on Primary Production of Phytoplankton and Zooplankton 87
I.B. Bogatova and N.P. Zhemayeva: Natural Food Supply and Food Availability Coefficient of Rearing Ponds After Introduction of Crustaceans and at Various Fish Stocking Densities 92
N.I. Silina: A Method of Counting Rotifers 98
S.S. Shvydchenko, K.I. Zaychenko and V.S. Vasilevskiy: A Method of Obtaining Bile from the Grass Carp 104
K.P. Kalenichenko: Determination of Anionic Surfactants in Natural Waters with Azure I 109

Number 6

A.F. Alimov: Investigations of the Biotic Balance of Fresh-Water Ecosystems in the USSR 1
V.V. Polishchuk: Progress in Aquatic Faunal Studies in the USSR 9
G.G. Polikarpov: Development of Marine and Fresh-Water Radioecological Research in the USSR 28
O.P. Oksiyuk, V.N. Zhukinskiy, T.A. Kharchenko, A.A. Protasov, V.M. Timchenko, and L.A. Zhuravleva: Engineering Hydroecology: Subject Matter, Definition, Tasks and Methods 37
S.A. Afanas'yev and A.A. Protasov: Characteristics of a *Dreissena* Population in the Periphyton of a Nuclear Power Plant Cooling Pond 42
A.A. Vorob'yeva and R.S. Nikonova: Rearing of the Gammarids *Dikerogammarus haemobaphes* and *Niphargoides maeoticus* 50
E.B. Moteyunene and D.V. Marchyulenene: Effect of Pulp and Paper Mill Effluent on Aquatic Vegetation 55
A.Ya. Malyarevskaya and T.I. Bilyk: Effect of Starvation and Differences in Food on Metabolism of Energy-Rich Compounds and Proteins in the White Muscle of Carp 59
B.Z. Kaufman: Preferential Response of Certain Crustaceans to Salinity Change 65
P.N. Linnik and Yu.B. Babivanets: Seasonal Variations in the Forms of Occurrence of Manganese and Copper in the Dnieper-Bug Lagoon 70
I.S. Shesterin: Determination of Pre-Fish-Kill State of Water Bodies from pH 76

A.M. Matviyenko: Invalid Inclusion of Algological Entities in Invertebrate Zoology 78
O.P. Dubovskaya: Vertical Distribution of Living and Dead Zooplankton in the Developing Sayan-Shushensk Reservoir 83
I.Yu. Smetanina: Degree of Aggregation of Bacterioplankton in Fish Culture Ponds 88
L.V. Bortkevich: Ecology and Production of *Corophium curvispinum* in the Estuarine Sections of Rivers of the Northwest Black Sea Coast 91
G.T. Tolmashova: Abundance of an *Astasia* Population in Changing Calcium Concentrations 94
M.P. Ladogina and O.B. Osokina: Toxic Effect of Copper on a Culture of the Cyanobacterium *Synechocystis aquatilis* 96
I.S. Legeyda, V.L. Dolinskiy, and T.D. Rogozyanskaya: Effect of Beavers on Aquatic Fauna 98
